If a school district chooses to authorize a contractor to enter and certify the financial information:

- School district must document the authorization and provide the documentation of authorization upon request to HHSC.
- HHSC recommends the authorization to enter and certify the quarterly financials information be incorporated into the contract with the authorized entity.

*January 2009 directive from the Associate Commissioner for Medicaid/CHIP Division, HHSC*
Primary contacts must attend and receive credit for training every federal fiscal year (FFY)
- Initial and Refresher training options

Various types of training
- MAC, RMTS, and SHARS

Recommend having multiple MAC financial contacts trained
- No trained MAC financial contact = No participation for remainder of FFY

Training is from FFY to FFY
- Not retroactive
- Districts must train for the federal fiscal year in which they wish to participate

Please notify us when switching districts – request credit be transferred to new ISD

Training determines the difference between “Full Access” and “View Only”
Random Moment Time Study

Presented by HHSC Time Study Unit
MAC Financial Quarterly Process

1. Participant Identification
   Determine who performs MAC activities

2. Random Moment Time Study
   Determine how much reimbursable activity is performed

3. MAC Financial Data Collection
   Enter actual costs associated with these activities

4. MAC Claim Calculation
   Reimbursement rates applied to calculate a claim

Today’s Main Focus
Eligible participants identified via the Participant List (PL)

- Job Categories
  - Direct Services and Administrative Staff Pool
  - Administrative Services Only Staff Pool (MAC Only)

- These are the only positions for which financial data can be reported

- Cannot report costs for positions and categories that were left off the PL that quarter

- Costs reported are “position-specific” not “person-specific”
  - Substitutes – individual replacing a provider on leave
  - Direct replacement – individual hired to fill a vacant position
Participant List (PL) & Random Moment Time Study (RMTS)

- PL drives the number of eligible MAC participants and determines the MAC financial cost eligible.

- If a PL is not certified for a quarter by the district, that district will not be able to participate in RMTS and will not be able to report its MAC financials for that quarter.

- RMTS results are the basis for the calculation of the administrative time study percentage that is applied to the MAC financials.
Ineligible Participants/Costs

- Overhead costs/indirect costs are captured in the Indirect Cost Rate (IDCR) on the MAC financials

- Review Administrative Services Only Staff Pool (MAC Only Categories)

- Salaries for staff in accounting, budgeting, payroll, human resources, purchasing, and employee relations are generally indirect costs

- Ineligible participants include those in:
  - Function 41 – General administration
  - Function 53 – Data processing services
MAC Participation Requirements

- MAC financial quarter will **not** be opened unless the following requirements are met:
  - Active contract with HHSC
    - Effective date (execution date) of the MAC contract is the date signed by the designated HHSC contact
  - Approved MAC Program Operating Plan
  - Received appropriate MAC and RMTS training for the FFY
  - Certified Participant List

- All participation documents must be approved and a MAC contract must be executed prior to the close of the RMTS Participant List for the quarter in which the district wishes to claim

- If you are unable to access the quarter, please contact the HHSC MAC team

Interim billing is **not** a MAC requirement

Electronic reporting of MAC financials

- Completed entirely online via the State of Texas Automated Information Reporting System (STAIRS) located on the Fairbanks LLC website
  - [https://www.fairbanksllc.com/](https://www.fairbanksllc.com/)

**ONLY Trained** MAC financial contacts will have access in the system to enter the MAC financials
Financial Data

- **District Employees**
  - Position must be included on the Participant List for that quarter
  - Performs MAC activities

- **Contracted Staff**
  - Position must be included on the Participant List for that quarter
  - Performs MAC activities
District Employees

- Compensation of employees
  - Salaries and Wages
    - Allocation of costs not necessary
  - Subject to federal withholdings
  - Reconcile back to general ledger

- Quarterly salaries/wages
  - Federal Fiscal Quarters: October-December, January-March, April-June, and July-September
Position Specific Example

Position #85 had the following employee changes during the January-March quarter:

- Employee A works Jan 1\textsuperscript{st} thru Jan 19\textsuperscript{th}, earns $800
- Substitute A works Jan 20\textsuperscript{th} thru Feb 28\textsuperscript{th}, earns $1,200
- Employee B works March 1\textsuperscript{st} thru March 31\textsuperscript{st}, earns $1,500
- Total MAC Reportable Expenditures for Position #85 would be: $800 + $1,200 + $1,500 = $3,500
Payroll Taxes & Benefits

- Examples of Employer-Paid Benefits:
  - Health Insurance
  - Life Insurance
  - Medicare
  - Employer 403(b) Contribution
  - Liability Insurance
  - Worker’s Compensation
  - Unemployment Compensation
  - Social Security
Only report “true” expenditures

- If your district incurs an insurance cost (premium paid), the district is entitled to report the cost incurred during the quarter.
- If your district is self-insured and pays a third party administrator for claim administration, the district is entitled to report the cost incurred for administrative fees and claims paid during the quarter.
  - District should not report any assumed liability such as set-aside funds, as the cost should reflect the true expenditures of the district.

Teacher Retirement System (TRS)

- Only costs to the district are allowable.
- “On behalf of” retirement payments cannot be claimed.

ISD must maintain all supporting documentation.
Employee vs. Contracted Staff

- **Employee – Full-time or Part-time**
  - Providers hired by the district – on payroll
  - Listed on Participant List as Full-time employee or Part-time employee
  - Report costs under the following columns: Employee Salaries, Payroll Taxes and Benefits, and Federal Revenue

- **Contracted Staff**
  - Not employees of the district
    - Either outside vendor or through SSA/Co-op (fiscal agent)
  - Listed on Participant List as Contract
  - Report costs under the following columns: Contracted Staff Costs and Federal Revenue
Contracted Staff

- Ensure Participant List is up-to-date
  - Correct employment type
  - Enter costs under appropriate columns

- Request breakdown of costs on invoice from the contractor to ensure:
  - Correct number of positions are claimed
  - Costs are placed in the correct categories
Federal Revenue

- Identify ALL federally funded positions on Participant List
- Report (State, Local, & Federal) costs in the appropriate columns
- Federal Revenue column is used to subtract the Federal portion of costs that were included in the: Employee Salaries, Payroll Taxes & Benefits, and Contracted Staff Costs columns

Federal Revenue (cont.)

- Federal funds include, but are not limited to:
  - Federal Grants
  - Matching Funds

- To optimize federal revenue sources, it is recommended that providers are funded with state/local dollars

- MAC and/or SHARS funds are considered “reimbursement” funds and are not required to be backed out of the MAC financial claim as revenue offset
Districts in an SSA/Co-op

- Fiscal agent can only report costs for the students “enrolled” in the district serving as the fiscal agent

- All ‘shared’ costs must be allocated to each of the member districts
  - Example: If a member district contributed 15.75% of the budget, that district would be allocated 15.75% of the paid hours and payroll costs for each staff person
  - Allocation of costs based on budget contributions is only one way in which a fiscal agent may choose to allocate costs

- **Important:** Allocation methodologies used to distribute shared costs to member districts of an SSA/Co-op must be documented and presented to HHSC upon request
Regional Day School Program for the Deaf (RDSPD)

- If host district reports all the students on its PEIMS data:
  - Host district will report 100% of the salary and benefits of the providers for the RDSPD
  - Allocation of costs not required

- Member districts will not report any costs associated with the RDSPD

- Contact HHSC regarding district-specific questions
There are two options to enter financial data:

1. Participant Details
   - Detailed basis by individual position

2. Group Summary Schedule
   - Summary of costs by job category
   - Financial detail by position/individual must be kept on file
   - Enter Total Employees and Total Contractors claimed that quarter

Financial Tips

- If reporting at the Group Summary Level:
  - Refer back to the certified Participant List for the quarter
  - Participant List is available in advance

- Do **NOT** attempt to correct previous quarter errors in a current quarter
  - **Contact HHSC to correct the previous quarter**

- Remember – the district is required to maintain all financial data, and records must be made available upon request from state and federal entities
BREAK TIME!

Be back in 10 minutes.
Detailed Explanations – Edit Checks

- STAIRS is designed to perform various edit checks depending on the financial data entered.

- Helps find possible errors and allows ISD to correct the current financial report before certifying the data.

- Please contact the MAC team when you find an error in the previous quarter.

- If you notice an issue with the edit functionality, contact the MAC team.
Three types of Edit Checks in STAIRS flag financial data entries:

- Current quarter *salaries or contract wages* entered are compared to the previous quarter submitted
- Current quarter *payroll taxes and benefits* entered are compared to the previous quarter submitted
- Total staff entered on the financials is compared to the total positions reported on the Participant List for the current quarter

ISD must provide a concise explanation of sufficient detail to the flagged data entry, or correct any error discovered, whichever applies.
Current quarter salaries or contract wages entered are compared to the previous quarter submitted

- Explain in detail why costs increased or decreased
- Do not state “more (less) costs and staff to report”
- Instead explain why the district’s expenses increased or decreased
- In the explanation, consider workable days in the quarters compared, filled vacancies, new schools in the district, expanded programs, more students, etc.
Detailed Explanations – Edit Checks (cont.)

- Current quarter `payroll taxes and benefits` entered are compared to the previous quarter submitted
  - Must refer to taxes and benefits when providing this explanation
  - Do not write “new employee” or “more costs to report”
  - In the explanation, consider whether your district is self-insured, look at premiums (know that more salaries increase payroll taxes), and explain whether the district has hired a replacement that has greater or lesser salary or benefits
Detailed Explanations – Edit Checks (cont.)

- Total staff entered on the financials is compared to the total positions reported on the Participant List (PL)

- Best described numerically

- Total on the financials + the number of staff not providing services in the quarter + the number of vacancies remaining + the number of terminations or retirements = the total on the PL

- Example: If the total on the PL is 4 and the total claimed in the financials is 2, then a good explanation might be:
  - “1 vacant position & 1 provider did not provide services”
    - All add up to 4 – the total listed on the PL
Example:

Claimable Percentage

- **RMTS Results**
  - State-wide aggregate, quarterly
  - Ratio developed for Cost Pool #1 and Cost Pool #2

- **Medicaid Eligibility Rate (MER)**
  - District-specific, quarterly
  - Percent of students in district who are Medicaid eligible

- **Unrestricted Indirect Cost Rate (IDCR)**
  - District-specific, annually
  - Developed by the Texas Education Agency (TEA)
Random Moment Time Study (RMTS) Results

- Identifies reimbursable and non-reimbursable time

- Used to identify the percent of time providers are participating in MAC activities (as well as participating in direct medical services)
  - Each cost pool has separate and different time study percentages
  - MAC financial claim is calculated for Cost Pool #1 and Cost Pool #2 using their relevant costs and time study percentages
Medicaid Eligibility Rate (MER)

- Public Education Information Management System (PEIMS) enrollment data for the current school year is submitted to TEA by each district
  - District must ensure that PEIMS data is up-to-date

- Medicaid eligibility file for each quarterly period is gathered by HHSC and sent to TEA

- TEA develops an unduplicated Medicaid eligibility file from the quarterly file provided by HHSC

- Unduplicated Medicaid eligibility file is matched against the PEIMS enrollment data
  - There are 2 matches performed:
    1) Based on Social Security Number (SSN)
    2) For those who do not match based on SSN, a second run is performed based on the first name, last name, and date of birth

\[
\text{Total \# of Matches / Total \# of Enrolled Students (by District)} = \text{District’s Quarterly MER}
\]
Indirect Cost Rate (IDCR)

- Districts may choose to obtain an approved IDCR from the TEA
  - New IDCR must be obtained every fiscal year
  - Information about obtaining IDCR

- Helps ISD recover some of its indirect costs

- CMS approved use of unrestricted IDCR

- Charter schools and ISDs that need an IDCR should contact TEA – Division of Federal Fiscal Compliance and Reporting
