SUMMARY OF PROPOSED ADJUSTMENTS

To Be Effective January 1, 2019

Included in this document is information relating to the proposed adjustments to Medicaid payment rates for the Medicaid Biennial Calendar Fee Review of: (1) Ambulatory Surgical Centers/Hospital-Based Ambulatory Surgical Centers; (2) Diagnostic Radiology; (3) Hospital Diagnostic Radiology; (4) Rural Hospital Diagnostic Radiology; and (5) Medical Nutrition Therapy. The Texas Health and Human Services Commission (HHSC) intends to submit an amendment to the Texas State Plan for Medical Assistance under Title XIX of the Social Security Act to update the fee schedules to reflect these proposed adjustments. The rates are proposed to be effective January 1, 2019.

Hearing

The Health and Human Services Commission (HHSC) will conduct a public hearing to receive comments regarding the proposed adjustments to Medicaid rates detailed in this document on November 13, 2018, at 1:30 p.m. in the Public Hearing Room in the Brown-Heatly Building at 4900 North Lamar Boulevard, Austin, Texas 78751, with entrance through Security at the front of the building facing Lamar Boulevard. HHSC will consider all concerns expressed at the hearing prior to final rate approval. This public hearing will be held in compliance with the provisions of Human Resources Code §32.0282 which requires a public hearing on proposed payment rate adjustments. Should you have any questions regarding the information in this document, please contact:

HHSC will broadcast the public hearing; the broadcast can be accessed at <https://hhs.texas.gov/about-hhs/communications-events/live-archived-meetings>. The broadcast will be archived and can be accessed on demand at the same website.

Background

HHSC is responsible for the reimbursement determination functions for the Texas Medicaid Program. Proposed rates are calculated utilizing established methodologies that conform to the Social Security Act and related federal

regulations, the federally approved Texas Medicaid State Plan, all applicable state statutes and rules, and other requirements. HHSC reviews the Medicaid reimbursement rates for all acute care services every two years. These biennial reviews result in rates that are increased, decreased, or remain the same. The reviews are conducted to ensure that rates continue to be based on established rate methodologies.

Methodology

The specific administrative rules that govern the establishment of the fees in this proposal include these rules in 1 TAC:

- §355.8061, which addresses the reimbursement for outpatient hospital services;
- §355.8085, which addresses the reimbursement methodology for physicians and other practitioners;
- §355.8121, which addresses the reimbursement for Ambulatory Surgical Center, and
- §355.8441, which addresses the reimbursement methodologies for Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) Services (known in Texas as Texas Health Steps).

Proposed Rate Adjustments

A summary of the methodologies used to determine the proposed fee-for-service Medicaid rates is listed below:

- Procedure codes and descriptions used in the Texas Medicaid Program are national standard code sets as required by federal laws; Healthcare Common Procedural Coding System (HCPCS) and Current Procedural Terminology (CPT).
- Resource-based fee (RBF) methodology uses relative value units (RVUs) established by Medicare times a conversion factor. Current conversion factors include \$28.0672 for most services provided to children 20 years of age and younger and \$26.7305 for services provided to adults 21 years of age and older. Fees for services provided to children and identified as having access-to-care issues may be assigned a higher conversion factor, currently \$30.00.

- Access-based fees (ABFs) allow the state to reimburse for procedure codes not covered by Medicare or for which the Medicare fee is inadequate, or account for particularly difficult procedures, or encourage provider participation to ensure access to care.
- ABFs may also be established based on the Medicare fee for a service that is not priced using RVUs. Physician-administered drug pricing methodologies are outlined in §355.8085.
- For services and items that are not covered by Medicare or for which the Medicare rate is insufficient, different approaches are used to develop fees based on available information. These alternate methods include, as applicable:
 - The median or mean of the Medicaid fees from 14 states (the 10 most populous and the 4 bordering Texas) or the median or mean of the states that cover the service
 - Regional Medicare pricing from Novitas or a percentage of the Medicare fee
 - The current Medicaid fee for a similar service (comparable code)
 - 82 percent of the manufacturer suggested retail price (MSRP) supplied by provider associations or manufacturers
 - 89.5 percent of the average wholesale price for enteral and parenteral products
 - Cost shown on a manufacturer's invoice submitted by the provider to HHSC
- Rate determination methodologies related to outpatient hospital services are addressed in §355.8061.

Specific proposed payment rate adjustments are listed in the attachments outlined below:

- Att 1 – Ambulatory Surgical Centers (ASC)/Hospital-Based Ambulatory Surgical Centers (HASC)
- Att 2 – Diagnostic Radiology
- Att 3 – Hospital Diagnostic Radiology
- Att 4 – Rural Hospital Diagnostic Radiology
